

Preparations for PHPCamp'10 have already begun and we look forward to your support to make this un-conference a big success.

PHPCamp is one day event where we run multiple tracks for presentations and allow for BOF's. This year tracks are going to be split between basic, intermediate and advance. Each session is going to be of 40 minutes each.

In PHPCamp'08 we saw 700+ attendees and almost 1300 registrations. We also got media coverage in local news papers and blogs.
